

## RELIABLE POWER

### IFEC & PED Power Solutions

#### 280W, 115VAC to 28VDC Power Supply

- **Space Saving Design** enables more comfort/space for passengers... fits in cabin wall or ceiling, eliminating the need for below seat boxes, brackets or shrouds
- **Best in-Class Power Efficiency (>92%)** optimizes power utilization and generates less heat than competing units
- **Safe, Reliable Power**
  - Built in over-current protection
  - Thermal shut-down
  - Short circuit protection protects passenger and aircraft electronics
- **Complete Seat MRO Package available**, including sidewall mounting, seat wiring harness and USB sockets
- **Universal Design** applies to all installations

Part Number: 1-14683-R
